

Plants

I can name the main parts of plants and trees

Identify deciduous (D) and evergreen trees (E)

Key Words	Meaning
Deciduous	A tree that loses its leaves every year
Evergreen	A tree that keeps its leaves all year round
Seed	Seeds grow into new plants
Leaves	Leaves catch sunlight to make energy
Petal	The colourful parts of the flower
Fruit	Fruit contains the plants seeds
Buds	The part of a plant that will become a flower
Roots	The part of the plant that is hidden underground that holds it up and takes water and food from the soil.
Stem	It keeps the plant upright and carries water
Bulbs	Bulbs grow into new plants
